

Crale Builders, Inc. established in 1995, is a general contractor specializing in residential and light commercial construction.

From concept to completion, Crale Builders offers "total project development services" which includes design and drafting services, construction management and general contracting on a professional yet personal basis. Our capabilities and experience extend throughout Midwest Ohio including Shelby, Miami, Champaign, Logan and Auglaize counties.

*"We had a great experience working with Crale. They were very flexible and willing to work with us and the communication was excellent through the whole project. The quality was superb and they finished on time and at budget. By the time the project was completed, I felt like we were good friends. I would highly recommend them to anyone."*

*Diane Goettemoeller, Botkins*

# CRALE BUILDERS

*"I can't speak highly enough of Crale Builders. They were very personable and always available to answer any questions in a timely manner. Their attention to detail was outstanding. I could easily do the experience again."*

*Jeff Sargeant, Sidney Community Insurance*

*"I was very impressed with Crale Builders. I've already recommended them to many others. They were extremely patient during the planning process, working around many issues. They were also very patient and understanding when I wanted things that were unusual. The crews were polite and they answered questions freely and openly. Everything was quality - no shortcuts."*

*Linda Coil, Belle Center*

Serving Midwest Ohio

## Quality You Can Count On

Crale Builders is committed to achieving the highest level of craftsmanship, quality and productivity. We utilize a staff of qualified and experienced design and construction professionals and choose subcontractors and material suppliers who share in our commitment to customer satisfaction.

Today, customer expectations demand faster completion, quicker responses, better communication, hassle-free relationships, and of course, competitive costs. Crale Builders has responded to meet or exceed these expectations based on the guiding principles of customer satisfaction and continuous improvement. The result is a successful project from beginning to end.

## It is Our Privilege to Serve You

It is our goal to make the construction process a trouble-free experience for owners, while meeting their critical production deadlines and budget. And perhaps most importantly, to be willing to be held fully accountable for the results.

Our philosophy is one of complete identity with our client's interests at all times. We work closely with them during each phase of the construction process to ensure a similar vision with common expectations. We will sit down as many times as it takes to enable our customers to make effective judgements regarding design, costs, schedules and financing.

## Customer Satisfaction

At Crale Builders we are concerned with doing it right the first time. We also believe it is as important to please a customer after construction as it is during. That's why all construction is under warranty for a period of one year.

*"I would refer Crale Builders to anyone. They were very accommodating and they handled themselves in a very professional manner. The quality of work and craftsmanship is excellent. We were thrilled with the finishing work – they were very particular and precise."*

*Diane Hubble, Sidney*
